THURSDAY, MARCH 26, 1903

MAIN ESTIMATES

Ottawa, March 26.—The estimates for the year ending June 30, 1904, were presented to parliament to-day. The total amount asked for is $50,680,220, compared with $51,124,234 for the current year, which shows a decrease, but which will likely be made up with supplementaries later on. There is a decrease of $1,222,481 in public works, and an increase of over one million dollars on railways.

Western Items.

The items of interest to the Northwest are as follows:

Immigration—1902-3, $445,000; 1903-4 $595,000; increase $150,000.

Indians—$105,894; $1,106,750.

Mounted Police—$850,000; $900,000; increase, $50,000.

Government of Northwest Territories—$535,359; $550,359; increase $18,000.

Government of Yukon—$634,500; $405,000; decrease $229,000.

Dominion lands income—$168,782; $196,782; increase $8,000.

Dominion lands capital—$1,360,000 $1,430,000; increase $70,000.

For travelling expenses and allowances of judges: Manitoba, $3,800; British Columbia, $13,000; Northwest Territories, $3,000.

HOMESTEAD ENTRIES.

Free Press: The returns of the different agencies of the Dominion lands department throughout the west for February last show that the total number of homestead entries made was 1,166. In the corresponding month for last year there were 929 entries made, or an increase for February of this year of 237.

February is usually an off month at the land agencies, and the showing made this year is considered very satisfactory, and indicates that there will be a big immigration to the Canadian Northwest this season. The entries made at the different offices are as follows:

SPECIAL COUNCIL MEETING

A special meeting of the Edmonton town council was held in the council chamber last night at 8.30 p. m. to discuss the advisability of sending a deputation to Ottawa to urge the government to take immediate steps to provide Edmonton with a post office, court house and jail. The board of trade had suggested that petitions be drafted, signed and laid before the government by the deputation not later than the day following Easter. Those present were: Mayor Short, Councillors Cushing, Heminck and Gallagher. As three of the councillors were absent it was thought advisable to postpone the discussion of this question until a full meeting of the council could be held. If the council decides to fall in with the suggestion of the board of trade a public meeting of the business men of Edmonton will be called for the discussion of the subject.

Moved by Cushing—Heminck, that a committee of the town council, consisting of Messrs. Short, Gallagher, and Hess, act with a committee appointed from the board of trade to secure suggestions for suitable sites for those public buildings to lay before the public meeting of the business men.—Carried.

The secretary-treasurer read a letter from the North Bay Company, Toronto, quoting the cost to the town of the new condenser which the town had been arranging to purchase. The price f. o. b. railway in Edmonton is $4,182. On motion of Gallagher—Cushing, Mr. Beck and secretary-treasurer, G. J. Kinnaird were appointed a committee to draft a telegram of acceptance of the offer of the Northey Company for the condenser at $4,182 f. o. b. railway Edmonton.—Carried.

The meeting then adjourned.

AN OPEN LETTER

To the Builders of Edmonton District.

Gentlemen: No doubt you have heard and read in the papers recently a great deal about the so-called "LUMBER COMBINE," and the consequent advance of prices. In this connection a few statements of fact from us may be in order.

The manufacturers of British Columbia advise us that the advance in prices is due to the increased cost of labor and of materials and that this justifies the advanced prices to the trade. Whether this is true or not we are not in a position to judge.

But we do know that it is very difficult to get orders for B. C. lumber filled with any degree of promptness. Many of the mills are sold out of stock and cannot at present ship a car. We therefore claim that the advanced prices is due to scarcity of lumber. The price of any commodity is regulated in our day not so much by the cost of production as by the general demand for the commodity.

As to our own prices we beg to say that we are careful to see that they bear a right relation to cost. We cannot help the rise in B. C. lumber because the cost price is considerably advanced. But in the lines of our own manufacture such as Windows, Doors, Frames, etc., our prices are low, than the prices for the same articles either in British Columbia or Manitoba. This will indicate to you our position in this matter.

In view of the scarcity referred to if you are building or intend to do so, we advise you to place your order with us as soon as possible so that we may get in a position to fill it when required. We promise to do the very best for our customers that circumstances will permit.

Very Truly Yours,

MEN'S CLOTHING

Men's Suits, some new ones. Just about now you'll be glad to see some distinctly new goods, fresh ideas in the way of fabrics—large plaids, broken checks, narrow stripes in brown and gray effects—in fancy cheviots. The man who wants something "a little different" will appreciate the present showing of

PICCADILLY CLOTHING

There is a difference in clothing as in men. There are no better clothes made than those we are showing, but there are higher prices. A hot iron and a ton weight can press out a poorly made suit so that it looks very fine in a window. But only good, careful tailoring and all-wool cloth can make a suit hold its shape and look well for months and months. No need to argue with yourself, even though you have a good Suit or Overcoat. Will not another be welcome, if it's but to relieve a monotonous sameness? Many of these suits are of medium weight, and you could not find better for spring service. They are all identified by the "PICCADILLY" label. That makes them all the more desirable.

A good address goes a long way in aiding a man to forge to the front. We materially assist in giving you a presentable appearance by furnishing fashionable cut attire at prices below tailor made. Elegant patterns, careful workmanship. No clothing fits like ours.

BOY'S CLOTHING

C[illegible]G THAT DEFIES JUVENILE GYMNAS[illegible]

[illegible] you know how near useless it is to admonish youngsters not to [illegible] clothes. The only remedy is to get good clothes, but don't pay too much. Clothing is cheaper for a healthy boy than doctors' bills for a sick or [illegible] the boy.sh boy.

RAIN PROOF And other OVERCOATS

Cravenetted fabrics go through a process that goes to the foundation of the cloths—the very fibres that make the wool that makes the yarn are made non-absorbent. No earmarks of waterproof, no odor—no stiffness—is porous to air. The power of "cravenette," is in disguise until attacked by rain.

RUSH OF SETTLERS INTO WESTERN CANADA

Tribune, March 21st.

"Our immigration buildings at Edmonton are completely filled," said Commissioner J. Obed Smith to a Tribune reporter yesterday, "and we have had to put up tents for the people to occupy while they are remaining at the place."

This is an unusual occurrence so early in the season as the middle of March, but it goes to prove that the advance reports that have been given out about the great inrush of settlers into the Territories this spring are being amply substantiated. These people are practically all from the American side, and many of them are homesteaders. A number though, are being brought here by land companies, but the majority of that class have not yet commenced to come. The desire to be on the spot even while the snow is on the ground, shows that these people realize that there is to be a large incoming of Americans and others to take up the fertile lands of the west.

The same state of affairs has at Edmonton is true of Saskatoon, but there preparations are being made for the Barr colony, an advance party of which is already on the ground. This colony alone consists of over two thousand people, and will arrive here in April pretty well equipped with all the necessaries and some of the luxuries of life.

The American invasion so far, has come mainly by way of the Soo line from St. Paul, and two daily trains have since the first of the week been crowded with incoming settlers. In some districts of Minnesota and the Dakotas the movement embraces a large percentage of the people in those places.

This is especially true of some of the Icelandic settlements, among whom an agent of the immigration department has been working very successfully during the past few months.

Since Monday there have reached this city on the regular and special trains over four thousand settlers. This number has been slightly swelled by the return of many of those who took advantage of the eastern excursions at Christmas time to return to their old homes in Ontario and further east. They are now returning in time for the spring work, but many are bringing with them others, who have heard of the richness of the soil and the chances of success in the west.

A remarkable feature of the immigration, however, has been the number of Englishmen who are coming out to this country. Of the total of four thousand and odd who have reached Winnipeg already this week about one-half are Englishmen. Yesterday every bit of accommodation provided here for English speaking settlers was taken, and the new building formerly used as an immigration hospital was crowded. This building was on account of the reports received of the number coming from the old country, made over to accommodate them, and evidently the move was a wise one.

The great majority of those who have so far arrived are young men, who will not for some time at least, take up homesteads. They intend to learn the methods used here by working for a season or so with farmers already on the spot, and who know the conditions of the country.

Despite the fact that the inrush has been of remarkable size there has been no lack of places for those who desire them, a fact that goes to show that a much larger area will be put under cultivation this year than last, and that the farmers are preparing themselves against a possible scarcity of labor in the busy seasons.

Of the Englishmen, who so far have come, a rather large number are men who have been connected with the army, and who on their return from south Africa found that industrial conditions were such in the old country that there was no very brilliant chance of earning more than a livelihood, even if that could be obtained, which in many cases was rather doubtful.

A week after the Barr colony sail from Liverpool, another party of, some 2,000 members is expected to leave for Canada. The movement is general all over the country.

One of the party who arrived here yesterday, told a Tribune reporter that Canada, and especially the west, was a great topic of conversation, especially among the laboring people over there, and that there appeared to be a general tendency to come out and try their luck in a new country.

He stated further that the formation of the Barr colony had especially drawn attention in this direction, and would result in a much larger emigration this way than ever before. He knew of parties intending to come in the fall, and expressed the opinion that next spring would far out-number this in people coming from England to Canada.

In Regard to WATERPROOFS and TWEED SUITS

We would like a chance to show you what we have in these lines.

When we speak of Waterproofs, we do not mean the ill-smelling, ill-fitting, use-on-a-rainy-day affair usually shown under that name. Ours are handsome garments, beautifully tailored, made of lovely all-wool tweeds and covert cloths, which you would never suspect of being waterproof. These are stylish, full length coats, and look right any day, rain or shine.

Our All-wool Skirts for spring are as right as anything can be.

RUSH OF SETTLERS INTO WESTERN CANADA

The men that have arrived are a most desirable looking class of settlers, though many of them have not had any experience in farming.

About six hundred immigrants from Europe have already arrived this week. They are made up mainly of Germans, Hungarians and Scandinavians, and there have been a few Galicians. So far the Germans and German Russians have led in numbers this week, with fewer Galicians than any other people.

These have been almost without exception a splendid body of men physically, and are accustomed to hard labor, and they will not be disappointed in the new country.

If this week can be taken as any criterion, within the next two or three months there will be many thousands of immigrants arrive from the other side, to say nothing of the remarkably great inrush from the United States. The major part of the latter will pass over immediately into the Territories, and besides the regular daily railroad service, special colonist trains are being sent out each week from St. Paul.

MCFARLANE'S SURVEY PARTY

Several members of McFarlane's survey party have returned to Edmonton. They left the party at a point about twelve miles northeast of Lac la Nonne. The survey party left Edmonton the second week in March and taking up a line about two miles northwest of town worked in a northwesterly direction, heading for Fort Assiniboine. The line passes about one-half mile west of St. Albert, three miles west of Ray, 4 miles west of Riviere Qui Barre, through the Alexander Indian reserve, east of Dead Man's lake and on to Lac la Nonne. East of Dead Man's lake the country is hilly forming the divide between the waters flowing north and those flowing south. The party are now almost at the Pembina river which they will cross and proceed towards Fort Assiniboine. Reports state that from the Pembina river to the Athabasca on the line of the present trial survey, the country is swampy and covered with tamarac. Between Dead Man's lake and Lac la Nonne, south of the survey line, the country is prairie and would be excellent for ranching. Hay grows profusely and there is also a considerable amount of timber in localities.

BACK FROM THE NORTH

J. York and P. Tucker, left Edmonton the 29th of last September for the Smoky river district to engage in trading for furs with the Indians. They returned to Edmonton this week and report a successful trip. This season has been a very good one for the Indians as furs have been plentiful. Much of the country passed through is highly adapted either to farming or ranching. About 80 miles northwest of Lake St. Anne there are thousands and thousands of acres of almost incomparable farming or ranching country. Another part of the country that was especially attractive was that in the neighborhood of where the McLeod river empties into the Athabasca. Gold is being mined on the McLeod river.

LITERARY SOCIETY

The regular meeting of the Edmonton High School Literary society met yesterday afternoon, March 25th, in the usual place, Miss Maud McCauley, vice-president, occupied the chair. The minutes of the last meeting of the society were read and the following programme given:

Instrumental solo, Miss Clara Oliver.
Vocal solo, Miss Mary Reid.
Reading, Mr. Sifton.
Vocal solo, Miss M. Richardson.

A debate followed on the subject: "Resolved that the House of Lords should be abolished." The affirmative side was, Messrs. F. Buchanan and D. Ross. The negative side, Miss Clara Oliver, and Miss Moore. The decision went to the negative side. After the critic's remarks by Mr. Sifton, the meeting was brought to a close by the singing of the national anthem.
